FLITELite®

**Dual Sensor NVIS Pilot's Light
Fits Your Headset or Helmet Mic
Meets MIL-STD-3009**

FLITELite® Dual Sensor NVIS Pilot's Light Meets MIL-STD-3009

When you need light instantly, FLITELite™ is your high intensity light source that snaps on to your headset or helmet mic. At the touch of your lip, FLITELite will beam NVIS compatible light where you want it. Touch the front sensor to control intensity and the back sensor to turn it on or off—or simply wait, FLITELite will auto off in sixty minutes.

Custom Fit for your Headset Mic

Take advantage of these outstanding features:

- Instant, LiteTouch™ sensitive, hands-free operation
- Convenient, fully controllable variable intensity spot lighting
- Sixty minute auto shut off feature
- Ultra-lightweight, easy to install, custom headset mic fittings
- Failsafe, built-in BIT Preflight Test system
- LiteRecall™ feature—remembers your last light intensity setting
- Dependable, high efficiency battery life—Over 12,000 activations
- One Year Limited Warranty
